Start Budget

Governors had viewed the Start Budget in both summary and detailed formats prior to the meeting.

The Bursar stressed that the school is in a very healthy position across the three year forecast, with an increased income. This means that by year 3 the school will show a £41,100 surplus. The Bursar elaborated on the headlines from the three year forecast and governors were invited to raise any queries:-

Governor Question 1:- Is the position with Teacher's Pensions still

Ans: The Bursar explained - no decision has been made, as yet. Current thoughts are that this increase will not hit the schools and that it will need to be supported, as very many schools would be unable to find the funds from their budgets. Gov Qu. 2:- Where should we be aiming with the surplus to make sure that we have an appropriate 'financial cushion', but also ensure that we are not scrimping on the education of pupils? Ans: The Bursar confirmed that the school has a healthy forecast - the surplus is not huge, it is appropriate and is a realistic 'cushion'. The Bursar also confirmed that the 'carry forward' is no longer capped. Gov. Qu. 3:- In the past we have made some cuts to achieve necessary savings, are those cuts going to create difficulties? Ans: The H.T. confirmed that the levels of provision are currently working well. Governors were reassured that there will be a review in September and the revised Budget will be considered in the Autumn term. The Bursar advised that should any staffing increase be needed, it would be prudent to ensure that this were done on a fixed term basis. Gov. Qu. 4:- In the surplus there was some funding for the garden – is that now in the Capital? Ans: It went into the 'fund raising' pot.
