Multiplication Check

Dear Parents,

As you may be aware, from June 2020, the government introduced a new national statutory test for Y4 children called the 'Multiplication Tables Check' (MTC). The test will judge how well each child knows their multiplication tables up to 12 x 12, which is the expected standard by the end of Year 4.

The test will be administered in the summer term and will involve an online test of 25 multiplication questions. The results will then be shared with us to help us best support the children, as they progress through the Y5 and Y6 maths curriculum. The test is not designed to make the children anxious, and they will spend plenty of time over the course of the year working on their multiplication facts. Regular practise at home (including on TT Rockstars and other online games) is of course advantageous.

An information leaflet is attached to this letter, however if you have any questions please don't hesitate to contact myself or Miss Pole.

Thank you for your continual support.

Mr. S Donaldson
